# Program Support Donation Form

Owen J Roberts School District participates in two exciting programs that stimulate our children's minds and enrich their overall educational experience. We need your help to keep these educationally valuable programs present in our schools.

## ODYSSEY OF THE MIND

An international educational program that provides creative problem-solving opportunities for students from kindergarten through college. Team members apply their creativity to solve problems that range from building mechanical devices to presenting their own interpretation of literary classics. Each year every school in the district participates, and we would like to continue the tradition!

## ROBOTICS TEAMS

Since the first high school robotics team was started in 2009, the excitement has spread throughout the Owen J Roberts school district. Multiple teams have formed at the FTC and FLL levels. Our goal is to provide students at all grade levels and in all schools an opportunity to join a robotics team. Robotics competitions are designed to allow all students to learn about mechanics, electronics, programming, business, teamwork, and leadership. These activities allow students to put classroom knowledge in math and physics to work in real-world problems. We are proud to be hosting our own robotics competition this fall.
